The setting was ideal, the company was hand picked, and a great time was had by all. We all owe **Norm Chew** and his faithful asst. **Judy Hartbeck** a deep vote of thanks. The first day was devoted to the serious business — a golf tournament, during which the course record was threatened on several holes but finally emerged intact. The second day was devoted to an economic roundup led by our old friend and mentor, **Warren Law**. Members of the group participated and a warm discussion followed the talk; the discussion finally broke up in order to preserve the "happy hour" — a custom that has apparently continued

undiminished with 49-ers. The following day was devoted to elevating thoughts at the top of Pikes Peak — a trip engineered by **Page Townsley**, who is really more at home at sea. The last night was a farewell dinner, and sad words of parting were uttered after a splendid time in a splendid setting.

The following were in attendance: **Ken Kilcarr**, **W. Cohan**, **P. McDonough**, **P. Townsley**, **Bill Distler**, **Wilt Manewell**, **Dick Ashley**, **Bill Schnabel**, **John Meyer**, **Bobby Lim**, **Spud Dahlman**, **Norm Chew**, and **Will Bush**. Many came with wives — so it had the feel of wives week, and the ladies added considerably to the meeting.

Several things of general interest came out at the meeting, since everyone recounted their present status and activity. **Norm Chew** did all this in spite of recent surgery — though Colo. might be a good place to recover. **Will Bush** gave details of his retirement and a planned address for next spring in Hilton Head Island, SC. **Bill Distler** is now sr. vice pres. of Climax Molybdenum and he had the least distance to come. **Bobby Lim**'s dogs are previously reported, and he won the prize the farthest. **Spud Dahlman** reported on the crisis, and that **Andy Barnet** is up, around, well, as is **Charlie Webb**. **Pat McDonough** reported diminished activity in oil drilling, but activity in pipelines and such. **Ken Kilcarr** is the YC-AMP pres. and announced that **Stan Turner** is to be the Dec. 8 program.

John Meyer is now operating out of Tulsa, and **Dick Ashley** has retired and is doing a fair bit of traveling, which is long awaited and much enjoyed. **Walt Cohan** is having trouble with chocolate prices, but no other problems. **Page Townsley**, running the Transportation School of Northwestern Univ., reports communications with **Bill Doughty**, who is now at Cape Asbestos, business not a place.

We learned at the meeting of the passing of **Ray Grainger** in Nov. 1976 and of **Fred Schger** last May, bringing our toll to seven — a lot considering that we were very young at Harvard.

Other news: **Ben Fauber** has been elevated to sec. vice pres. and chief admin. officer of K. He leaves Covina, CA for Troy, MI on Oct. **Fred Poettman** writes of moving to Littleton, CO. He doesn't say, but it sounds like a retirement move. **Bill Kelly** sends word of a new address in
